Confined Space Assessment & Work

- Increased my awareness of confined spaces
- Identified confined spaces
- Differentiated between confined spaces and permit required confined spaces; learned how to establish a confined space program; trained employees on confined space entry; learned how to appropriate equipment and instrumentation for confined space entry; learned how to establish, outfit, and train a confined space rescue team; learned proper use and calibration of confined space instrumentation; learned proper use of confined space equipment; learned how to audit our confined space program.
