

**WELL AT HOME  
SAFE AT WORK**

**OSC | 12**  
Ohio Safety Congress & Expo

**#265 Fire Safety: Who's Responsible? – Intermediate**

2:30 to 3:30 p.m. – Thursday, March 29

This session will look at fire safety and code compliance from the aspect of who's responsible. The facility owner/management, the employees and visitors all bear some degree of responsibility, and we'll show how each is defined and can best work together towards a safer work environment. The session will cover fire department access, storage, egress, electrical, mechanical hazards and more. You will be able to define the fire safety responsibility held by different roles in the workplace; identify common fire hazards in most workplaces; and describe how to abate those fire hazards.
