

EDISIM AMBASSADOR KIT

DOWNLOAD AND INSTALLATION INSTRUCTIONS

Read all instruction steps before executing them because some directories may need deleted from your hard-drive prior to downloading the current Ambassador Kit (also called “Testkit.”)

- If a prior Testkit download directory exists on your PC from a previous download, then delete the existing **iskit** directory and all of its contents from your PC.
 - If a prior Testkit is loaded on your PC from a previous Testkit installation, then delete the existing **EMBASSY5** directory and all of its contents from your PC.
1. Create a new directory on your PC named **iskit**. This directory will be used to download the Testkit executable modules.
 2. From your Internet browser, logon to your MCO pages from BWC’s web-site.
 3. Download the EDISIM Ambassador Kit from the link named **iskit.exe** into the **iskit** directory you created in Step 1.
 4. From the **iskit** directory on your PC, execute **iskit.exe**. This will expand **iskit.exe** into five (5) additional files.
 5. Now, from the **iskit** directory on your PC, execute **setup.exe**. Follow the install prompts as they appear on the screen. Installing a new Testkit will create an **EMBASSY5** file on your PC.
 6. Print all instruction documents from the newly loaded Testkit. PDF (Portable Document Format) files can be opened and printed with **Adobe Acrobat Reader**. Adobe Acrobat Reader is free software that can be downloaded at <http://www.adobe.com>
 - **EMBASSY5\OHIOBWC\Additional Files*.pdf**
 - **QUIKSTRT.pdf** = **Quick Start**
 - **READDOC.pdf** = **Document Builder**
 - **READREF.pdf** = **Standards Reference**
 - **READANA.pdf** = **Analyzer**
 - **ANAMSGS.pdf** = **Analyzer Messages**
 7. Read the **QUIKSTRT.pdf** file for more information.
 8. When the install is complete, execute the Ambassador programs to verify the install completed successfully.
 9. The **Information Systems Documentation** is contained within directory **EMBASSY5\OHIOBWC\Additional Files\OBWCISxx.pdf**
 - Where xx is the version number. For example version 2.0 is named **OBWCIS20.pdf**
 - The EDI Implementation Documentation and instructions for other file downloads (such a Provider File, etc) are contained within the **Information Systems Documentation**
 - Since the **Information Systems Documentation** is designed for 2-sided printing, it is recommended that it be printed as a 2-sided document
