

2:45 to 3:45 p.m. — Wednesday, March 31, 2010

Hit the road experts with your questions

This panel session has been popular for several years. The panel includes representatives from the public and private sectors. Expertise includes highway safety, driver training, fleet management, commercial vehicle licensing and standards, federal programs, and advanced transportation systems. Ask your questions and challenge the panel of experts! Attendees will be able to list federal and state safety program information; describe commercial vehicle operation and licensing requirements; define state-of-the-practice in driver training; and recognize technologies available to the public.

Presented by George Saylor, senior ITS engineer, Ohio Department of Transportation; Jonathon Hughes, systems planning supervisor, Ohio Department of Transportation; Robert Warner, lieutenant, Ohio State Highway Patrol; Ken Stout, president, DriveTeam Inc.; Cory Gillard, facility manager, Boyd Brothers Transportation Inc.; and Joseph Ginski, Jr., safety programs engineer, Federal Highway Administration - Ohio Division
