(A) HPP.

Unless an MCO has negotiated a different payment rate with a hospital pursuant to rule 4123-6-10 of the Administrative Code, reimbursement for hospital inpatient services with a discharge date of February 1, 2017, or after shall be as follows:

(1)

(a) Reimbursement for hospital inpatient services, other than outliers as defined in paragraph (A)(3) of this rule or services provided by hospitals subject to reimbursement under paragraph (A)(4) of this rule, shall be calculated using the applicable medicare severity diagnosis related group (MS-DRG) reimbursement rate for the hospital inpatient service under the medicare inpatient prospective payment system, multiplied by a payment adjustment factor of 1.127, according to the following formula:

MS-DRG reimbursement rate x \(1.127\) = bureau reimbursement for hospital inpatient service.

(b) In the event the centers for medicare and medicaid services makes subsequent adjustments to the medicare reimbursement rates under the medicare inpatient prospective payment system as implemented by the materials specified in paragraph (A)(7) of this rule other than technical corrections, including but not limited to adjustments related to federal budget sequestration pursuant to the Budget Control Act of 2011, 125 Stat. 239, 2 U.S.C. 900 to 907d as amended as of the effective date of this rule, the "applicable medicare severity diagnosis related group (MS-DRG) reimbursement rate for the hospital inpatient service under the medicare inpatient prospective payment system" as specified in this paragraph shall be determined by the bureau without regard to such subsequent adjustments.

(2) In addition to the payment specified by paragraph (A)(1) of this rule, hospitals operating approved graduate medical education programs and receiving additional reimbursement from medicare for costs associated with these programs shall receive an additional per diem amount for direct graduate medical education costs associated with hospital inpatient services reimbursed by the bureau. Hospital specific per diem rates for direct graduate medical education shall be calculated annually by the bureau effective February first of each year, using the most current cost report data available from the centers for medicare and medicaid services, according to the following formula:

\[1.127 \times \frac{(\text{total approved amount for resident cost} + \text{total approved amount for allied health cost})}{\text{total inpatient days}} = \text{direct graduate medical education per diem} \]

Direct graduate medical education per diems shall not be applied to outliers as defined in paragraph (A)(3) of this rule or services provided by hospitals subject to reimbursement under paragraph (A)(4) of this rule.

(3)

(a) Reimbursement for outliers as determined by medicare's inpatient prospective payment system outlier methodology shall be calculated using the applicable medicare severity diagnosis related group (MS-DRG) outlier reimbursement rate for the hospital inpatient service under the medicare inpatient
prospective payment system multiplied by a payment adjustment factor of 1.754, according to the following formula:

\[ \text{MS-DRG outlier reimbursement rate} \times 1.754 = \text{bureau reimbursement for hospital inpatient service outlier.} \]

(b) In the event the centers for medicare and medicaid services makes subsequent adjustments to the medicare reimbursement rates under the medicare inpatient prospective payment system as implemented by the materials specified in paragraph (A)(7) of this rule other than technical corrections, including but not limited to adjustments related to federal budget sequestration pursuant to the Budget Control Act of 2011, 125 Stat. 239, 2 U.S.C. 900 to 907d as amended as of the effective date of this rule, the "applicable medicare severity diagnosis related group (MS-DRG) outlier reimbursement rate for the hospital inpatient service under the medicare inpatient prospective payment system" as specified in this paragraph shall be determined by the bureau without regard to such subsequent adjustments.
