

**4123: 1-7-03 Galleries.**

(A) Galleries where molten metal is poured into molds shall be:

- (1) Provided with solid, leak-proof floors, or
- (2) Guarded to prevent access to the area below the pouring operation.

(B) Partitions of sheet steel no less than forty-two inches in height shall be installed on any open side of galleries described in paragraph (A) of this rule.

Effective: 1/1/81

Prior Effective Date: 4/1/64
