

4123: 1-7-04 Passageways.

(A) Passageways shall be sufficiently firm to withstand the travel for which they are intended, and shall be kept clear of obstructions.

(B) Passageways shall be no less than twenty-four inches wide where no more than two employees manually carry molten metal.

(C) Passageways shall be no less than five feet wide where more than two employees manually carry molten metal.

(D) Passageways where molten metal is transported in truck, sulky, or manually operated monorail ladles shall be no less than twenty-four inches wider than the extreme width of such ladles.

(E) Passageways used for parallel travel of truck ladles or manually operated monorail ladles shall be no less than twice the width required for a one-ladle operation.

Effective: 1/1/81
Prior Effective Date: 4/1/64
