Historically, falls are the leading cause of fatalities in construction, accounting for one-third of all fatalities in the industry.

Please answer the following questions regarding fall protection at your workplace or jobsites.

1. Identify all of your fall hazards 6 feet or more above the ground or from a lower level at your job sites.

2. Describe your written fall protection program that identifies responsibilities and accountabilities for competent and qualified persons?

3. Name of your competent and qualified person or persons.

4. Does a competent person conduct frequent and regular site specific fall hazards inspections on all job sites?

5. Identify those areas where exposures to falls exist (i.e., scaffolds, ladders, roofs, structural framing, leading edge, overhand brick laying and elevated work platforms).

6. What fall protection measures, systems and equipment do you commonly use?

7. Do you have a fall protection-training program at your workplace? Have you trained your employees on these systems on the job site? Provide recent fall protection training dates?

8. Do you have worker rescue procedures in place that do not rely on the fire department?

9. Do you have an enforcement policy established? Have you communicated and enforced this policy at your workplace or job sites?

10. Have you informed other subcontractors on your site specific fall protection measures?

BWC offers fall protection classes and safety consultations free of charge.
