Check out these other great BWC programs and services!

We’re pleased you have already used at least one of our services to improve the safety and well-being of your workers. We hope you’ll consider using more of the money-saving programs and services we provide as part of the premiums you already pay. Here are just a few examples.

**Destination: Excellence**

This portfolio of programs rewards your company for keeping your workplace safe and getting injured workers healthy and back to work sooner. Destination: Excellence lets you choose from seven program options to meet your company’s specific workers’ compensation needs. From rebates for paying premiums online and on time to focusing on safety hazards specific to your industry, Destination: Excellence’s safety, return-to-work and savings options offer something for every business.

**Consulting and training**

Included in the premiums you already pay is access to a wide variety of our safety and risk-management programs and services. We have a veteran staff of safety and health, and risk-management experts who provide consultation and training for your company, either on-site or at a BWC office near you. You can also receive training at our Central Ohio training center, at most of our customer services offices and on-site. Additionally, our library — with more than 6,000 books, 200 periodicals, and 600 videos — gives you access to the most up-to-date information on occupational safety and health, rehabilitation and workers’ compensation.

**Grants**

We understand companies have ideas on improving workplace safety, but don’t always have the funds to implement them. That’s why we offer a variety of grant programs to help you:

- Purchase equipment to substantially reduce or eliminate injuries and illnesses associated with a particular task or operation;
- Cover the costs of implementing our Drug-Free Safety Program;
- Develop and maintain a transitional work program to return injured workers back to the workplace in a safe and timely manner;
- Start a workplace wellness program to improve the overall health and well-being of your workers.
