Operation street smart, Part one

Drug abuse affects all of us either at home or in the workplace. Attendees will learn how illicit drugs enter the country and how they are carried, concealed and consumed. Attendees will learn to identify how illicit drugs enter the country and how they are carried, concealed and consumed (focus will be on heroin, including black tar, salvia divinorum (common house plant) and kratom (a plant from Southeast Asia); explain concealment techniques; list the terminology used by abusers and the affects the drugs have on the body; and describe how teenagers are abusing common house plants.

Presented by Michael Powell, retired sergeant, Franklin County Sherrif's Office
