Gangs: What you should know, Part two

This session is a continuation of part one. Gang management methods will be discussed. Questions from attendees are encouraged throughout the session. This session covers gang recognition as well as knowing which of your students might be vulnerable to gang membership. Attendees will be able to identify the viewpoint of adolescents as compared to adults about gangs; define firm, fair and consistent guidelines for a school setting; and recognize strategies for talking with gang members and leaders and de-escalating violence in schools. Presented by Linda Schmidt, instructor, Private Consultant
