#116 Farm Vehicles on Ohio Roadways: Legal and Safety Requirements, Part 2 – Intermediate
3:45 to 4:45 p.m. – Thursday, March 29

Understanding the Ohio Revised Code for farm vehicles, implements of husbandry, trailers and semis can be confusing to agricultural operators. This panel session includes legal educators and law enforcement officers discussing some of the questions about transporting agricultural commodities. Hot topics include commercial driver's license requirements, agricultural exemptions, licensing requirements and more. You will be able to explain definitions of farm vehicles; distinguish between intrastate and interstate commerce requirements; list commercial driver's license (CDL) requirements; and identify regulations that affect farm trucks, implements of husbandry, trailers and semis.
