

#555 OSHA's National Emphasis Program for Trenching and Excavation – Basic

2:30 to 3:30 p.m. – Wednesday, March 28

This session will provide an overview of the hazards associated with trenching and excavation work along with OSHA's excavation standards and National Emphasis Program. The session will include an overview of trench safety best practices and methods to protect your employees, and the consequences of a collapse. You will be able to describe OSHA's trenching and excavation emphasis program; identify the potential hazards associated with trenching and excavation work; and explain how to protect employees from hazards of trenching and excavation.
