

**#221 A funny thing happened on the way to work – Basic  
8 to 9 a.m. – Thursday, March 31**

Humor is vital in today's high stress work environment. Take this humorous journey with the speaker through his career as a police officer, emergency room nurse, flight nurse and now as a clinical leader in a busy urgent care. You will be able to explain how an open approach to life can lead to positive change opportunities; and describe how the use of humor can reduce stress.

Developed by the Emergency Medical Services committee

Presented by Kenny Hoffman, RN, CEN, EMT-P, clinical leader, Nationwide Children's Hospital, Westerville Urgent Care, Westerville
