

#504 Environmental program requirements, Part 2 – Basic
1:15 to 2:15 p.m. – Thursday, March 31

With the current economic changes, many people are doing double duty and are required to take on additional responsibilities. If you're responsible for complying with environmental regulations, this is the class for you. In this two-part session, we'll introduce U.S. EPA (40 CFR) and Ohio EPA (OAC 3745) regulations and discuss their requirements. By completing both sessions, Part 1 (session #503) and Part 2, you'll have a basic understanding of the myriad of environmental regulations that apply to your facility and how to comply with them. You will be able to (continuation from part 1, session #503) explain the administrative requirements of those regulations, including reports, records and training.

Developed by the Small Business committee

Presented by Bill Schneider, CHMM, authorized OSHA outreach trainer, senior manager, EHS services and Vicki Schneider, CHMM, senior manager, GT Environmental Inc., Westerville
