

#213 Challenging EMS runs: Multi-system trauma and pediatrics – Basic
11 a.m. to Noon – Wednesday, March 30

A panel of paramedics, a doctor and an EMS coordinator will discuss a series of interesting emergency runs. The reports will be critiqued, and there will be discussion about different treatments, protocol uses and procedures performed. Runs to be discussed will be adult multi-system trauma and pediatric emergencies.

You will be able to identify methods used by different departments to handle the same patient in several EMS runs, including multi-system traumas and pediatric emergencies.

Developed by the Emergency Medical Services committee

Presented by Judy Royer, DO, Good Samaritan Hospital, Dayton; Mike Jett, EMP-T, EMS coordinator, Atrium Medical Center; Ron McWilliams, EMT-P, Southeast Ohio EMS; Tom Wolf, EMT-P, assistant chief, Montgomery Fire Department; and Robert Lantman, FFII, NREMT-P, CFEI, EMSI, captain, Clearcreek Fire District, Springboro
