

#264 Fire safety in your home and workplace – Basic
1:15 to 2:15 p.m. – Wednesday, March 30

This session will teach you what you can do to make your home and workplace a safer place to live and work, including what kind of fire extinguisher and smoke detectors you should have. You will be able to identify ways to improve safety in your home and work place; list the basic equipment you need to be prepared for a fire or emergency.

Developed by the Fire Prevention committee

Presented by Steve Waltman, fire prevention teacher, Ohio Division of State Fire Marshal,
Reynoldsburg

Credits: 0.1 IACET; 1 CDMS; 1 HR; 1 Sanitarian
