Pursuant to Amended Substitute House Bill 15, BWC will give an eligible employer the temporary .99 EM\* unless the employer decides not to participate (opts out). This .99 EM will not change the employer's actual rate. BWC will calculate the actual rate based on the employer's claims experience consistent with the calculations used for all Ohio employers.

Should you decide to participate in the .99 EM Construction Cap Program and receive a temporary .99 EM, you must:

- Work with a BWC safety consultant to implement a safety program similar to BWC's 10-Step Business Plan for Safety;
- Have an implementation plan in place by Nov. 30;
- Be responsible to pay full premium based upon actual calculated EM for the company.
